INFLA TABLE AWNINGS

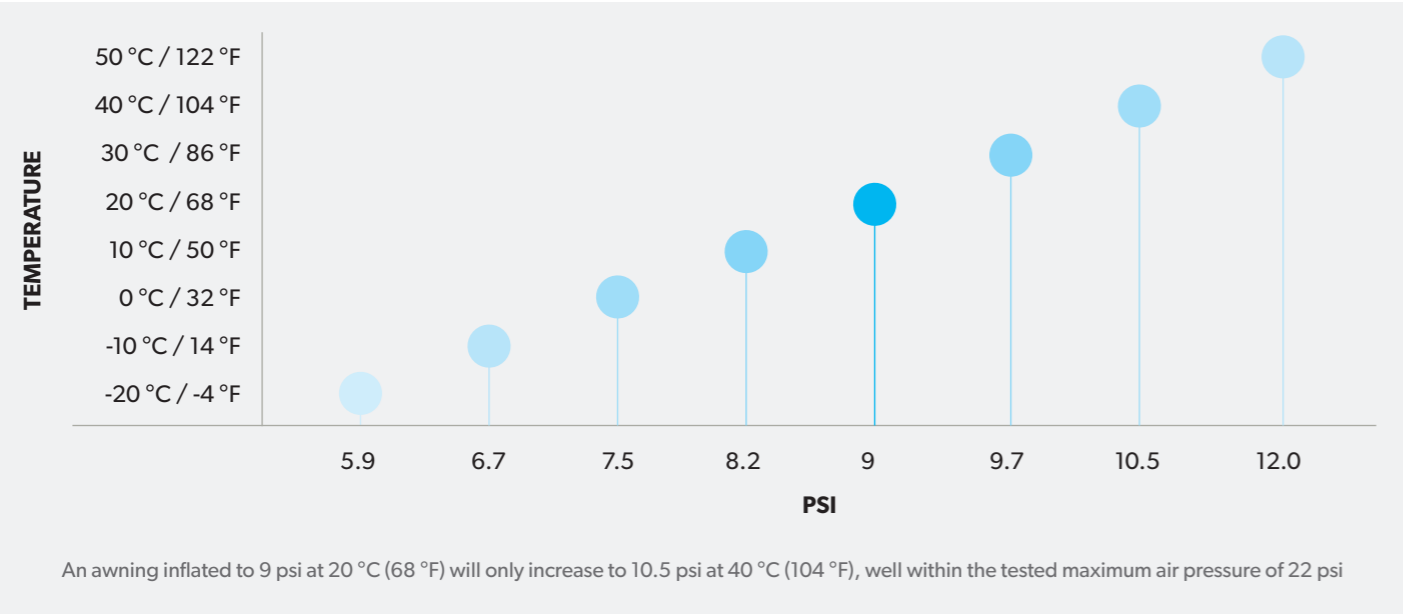

KAMPA DOMETIC AIRFRAME

QUICK AND SECURE – OUR GROUNDBREAKING INNOVATION HAS
REVOLUTIONISED TOURING

The patented AirFrame technology in Kampa Dometic inflatable awnings will transform your touring experience. Conventional steel and fibreglass awning poles are replaced with interlinked inflatable AirPoles, enabling you to inflate the entire awning from a single external point. Conveniently, the AirFrame is always attached to the awning for a quick and easy setup. And not only is the AirFrame extremely strong, it can flex in the wind too, so you'll never break or

bend a pole. Plus, with no metal or fibreglass poles there's nothing to damage your motorhome, as the AirPoles simply rest against your vehicle with no other attachment needed. For optimal awning performance inflate the awning to 9 psi. Each awning comes with a Downdraught hand pump and for maximum convenience, simply plug in the optional Gale 12 V pump.

AIRFRAME PRESSURE IN RESPONSE TO DIFFERING AIR TEMPERATURES

SINGLE POINT INFLATION

Individual AirPoles are linked together allowing the entire awning to be inflated from a single external inflation point. The entire AirFrame is easily deflated through quick release deflation valves at the base of each leg; as each AirPole is connected there is no need to deflate each AirPole individually. So, as well as being the easiest awnings to set-up, the user-friendly Kampa Dometic awnings are also the easiest to take down.

Deflation valve

For optimal performance
inflate to 9 PSI

Inflation valve

AIRFRAME CONSTRUCTION

The AirFrame is incredibly durable, each AirPole is made of a strong TPU inflation tube zipped into a reinforced laminated oxford polyester/PE cover, which is then zipped into a heavy-duty polyester sleeve in the awning. Tested to 22 psi, the AirFrame system best functions when inflated to 9 psi.

RELIABLE TECHNOLOGY

Kampa Dometic AirPoles are well protected and require no maintenance. Inflatable awnings are considerably lighter, and with no poles to snap, the AirFrame is also far more durable than conventional poles. The AirFrame is suitable for both hot and cold climates as well as extreme changes in temperature.

AWNING KEY FEATURES

INNOVATIVE FEATURES TO ENHANCE YOUR TOURING EXPERIENCE

AIRFRAME™

Single Point Inflation AirFrame awnings inflate entirely from just one external inflation point, creating an exceptionally strong structure.

QUICKPITCH™ GUYING SYSTEM

Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

DUAL-PITCH™ ROOF SYSTEM

Effectively deflect wind and shed rain water efficiently to prevent puddling on the roof and enhance performance.

SABRELINK™ READY

Attach up to three lights on the front and centre AirPoles. Switch the lights on/off and adjust the brightness remotely. Also suits poled awnings.

LIMPET™ READY

Pre-punched holes ready to attach the rear wall of the awning to the vehicle using Limpet Fix technology.

AWNING MATERIALS

HIGH QUALITY FABRICS TESTED FOR DURABILITY

WATERPROOF
Tested to 200L/m² per hour to ensure that you are kept dry.

WEATHERSHIELD™ ALL-SEASON

Ultra-rugged and UV resistant All-Season material, perfect for touring in warmer climates and for use on a seasonal pitch. The fully breathable fabric is constructed to handle extremes of weather and has been tested in the wettest regions of Europe and the sunniest parts of Australia to ensure it never lets you down.

WEATHERSHIELD™ PRO

The iconic Kampa Dometic fabric used extensively throughout the awning range has proven quality in diverse environments. With the look and feel of a traditional fabric, but weighing far less, Weathershield™ Pro continues to be the definitive choice for tourers the world over.

WEATHERSHIELD™ 150D

Extremely light and easy to handle, Weathershield™ 150D promises super-fast set-up and take-down every time. Highly durable and weather-resistant too, this lightweight material offers great value with no compromises.

WEATHERSHIELD™ PVC

Constructed with 400g/m² PVC, this super tough awning material is waterproof, long-lasting and easy to clean. Developed by Kampa Dometic for winter touring, Weathershield™ PVC is rated to -20 °C, more than a match for even the most extreme snowy conditions.

An Ultraviolet Protection Factor (UPF) denotes how much solar ultraviolet radiation is reduced when passing through fabric. Kampa Dometic awning material allows only 1/50th of ultraviolet rays to pass through, ensuring you're protected and kept cool.

CLUB AIR ALL-SEASON

THE AWNING FOR EVERY ENVIRONMENT

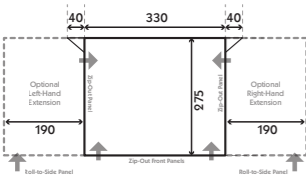

Ideal on a seasonal pitch or for touring in warmer climates. The new Club AIR All-Season boasts a striking Dual-Pitch™ roof apex, offering a unique aesthetic and masses of headroom, whilst the 2.75 metre depth means you'll never be short on space.

The front and side panels can be completely zipped out, veranda style, for fresh ventilation and to lighten the load. The new zip-on front canopy completes the look and provides plenty of relief on hot summer days.

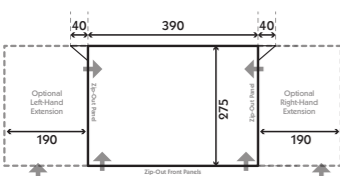

CLUB AIR ALL-SEASON 330 AW1014

Ref. No. 9120000005

CLUB AIR ALL-SEASON 390 AW1013

Ref. No. 9120000004

For full technical data see p. 62

SINGLE POINT INFLATION

Single Point Inflation AirFrame awnings inflate entirely from just one external inflation point.

STORM STRAPS

Included as standard with this awning, Storm Straps add stability and improve performance in adverse weather conditions.

INTEGRAL INFLATABLE CANOPY

Integral inflatable wet weather canopy with apex mesh ventilation.

WEATHERSHIELD™ ALL-SEASON

Ultra-rugged and UV resistant All-Season material, perfect for touring in warmer climates and for use on a seasonal pitch. The fully breathable fabric is constructed to handle extremes of weather and has been tested in the wettest regions of Europe and the sunniest parts of Australia to ensure it never lets you down.

OPTIONAL

OPTIONAL

CLUB AIR ALL-SEASON CANOPY

This optional front canopy simply zips onto the awning for additional overhead cover.

330 AIR Canopy / Model No. AA0014
390 AIR Canopy / Model No. AA0013

For full technical data see p. 71

CLUB AIR ALL-SEASON EXTENSION

Optional extensions can be fitted to either or both sides of the awning. Simply zip-on and inflate from a single point. Each extension increases the total awning width by 1.9 m whilst maintaining the awning's generous height and depth. Toggle-in the optional inner tent for an additional sleeping space.

L/H Extension / Model No. AA0006
R/H Extension / Model No. AA0007

For full technical data see p. 73

Suitable for caravans with a rail height of 235 - 250 cm

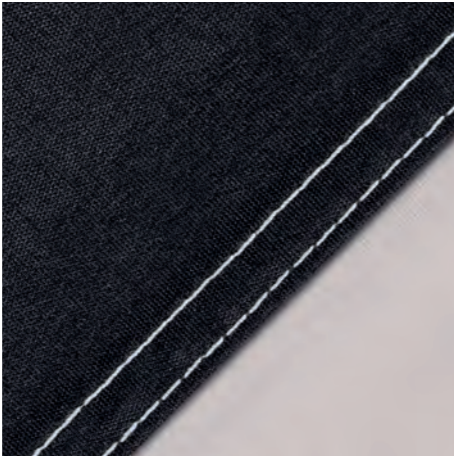

CLUB AIR PRO

MODERN AWNING TECHNOLOGY MEETS CLASSIC STYLING

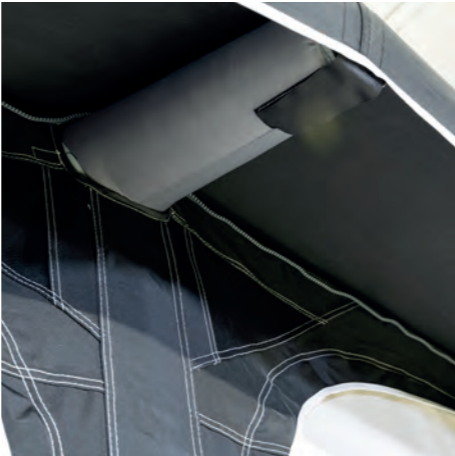

With its roof apex and integral canopy the Club AIR Pro is instantly recognisable. Zip-on extensions to either or both sides create a huge living space, perfect for entertaining. The clever front panel configuration offers two front doors, or simply unzip and remove the panels to open the awning up veranda style. Zip-on the new optional front canopy to complete the look.

SINGLE POINT INFLATION
Single Point Inflation AirFrame awnings inflate entirely from just one external inflation point.

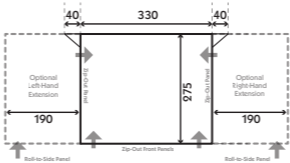

WEATHERSHIELD™ PRO
Weathershield™ Pro double coated polyester fabric.

INTEGRAL INFLATABLE CANOPY
Integral inflatable wet weather canopy with apex mesh ventilation.

CLUB AIR PRO EXTENSION

Optional extensions can be fitted to either or both sides of the awning. Simply zip-on and inflate from a single point. Each extension increases the total awning width by 1.9 m whilst maintaining the awning's generous height and depth. Toggle-in the optional inner tent for an additional sleeping space.

L/H Extension / Model No. AA0010
R/H Extension / Model No. AA0011

For full technical data see p. 73

FRONTIER AIR PRO 300

EXTENDED LIVING FOR ALL

If it's space that you require then the Frontier AIR Pro is the ultimate inflatable awning. At 7 m wide and 3 m deep, it's one of the largest awnings available. Sharing the same easy set-up as other Kampa

Dometic AIR awnings, it is inflated through a single inflation point. Enjoy the convenience of a door at each end of the awning front and additional zipped panels for easy access to any obstructed lockers.

EXTENSION REAR PANEL

Each of the end extensions features a window in the rear panel. The rear panels also have zipped access to any lockers behind them.

MESH FLYSCREEN

A large secondary mesh panel behind the right and left-hand side windows provides relief in hot weather.

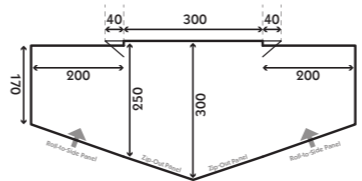

ZIP-OUT FRONT PANELS

Front panels can be zipped out to reduce weight and open the awning up veranda style.

FRONTIER AIR PRO 300 AW1001

Ref. No. 9120000009

For full technical data see p. 62

WEATHERSHIELD™ PRO

The iconic Kampa Dometic fabric used extensively throughout the awning range has proven quality in diverse environments. With the look and feel of a traditional fabric, but weighing far less, WeatherShield™ Pro continues to be the definitive choice for tourers the world over.

OPTIONAL

SUN WING

A generous clip-on canopy uses aluminium anodised poles to create a large shaded area, keeping you comfortable and protected.

Sun Wing 300 / Model No. CE7024

For full technical data see p. 72

OPTIONAL

INNER TENT

Add sleeping space to your awning with an inner tent. Breathable two-berth inner tents simply toggle into the awning. Available to suit both left and right-hand sides.

L/H Inner Tent / Model No. AA3005

R/H Inner Tent / Model No. CE7414

Suitable for caravans with a rail height of 235 - 250 cm

GRANDE AIR ALL-SEASON

SPACIOUS TOURING ALL YEAR ROUND

Constructed with ultra-rugged and UV resistant Weathershield™ All-Season material, this awning is perfectly suited to seasonal pitching and touring in extreme weather. From the wettest places in Europe to the sunniest parts of Australia, this awning won't let you down.

Optional extensions can be fitted to either or both sides. Simply zip-on and inflate. Each extension increases the total awning width by 1.9 m while maintaining the awning's generous height and depth throughout.

SINGLE POINT INFLATION

Single Point Inflation AirFrame awnings inflate entirely from just one external inflation point.

MESH FLYSCREEN

A large secondary mesh panel behind the right-hand side window provides relief in hot weather.

STORM STRAPS

Included as standard with this awning, storm straps add stability and improve performance in adverse weather conditions.

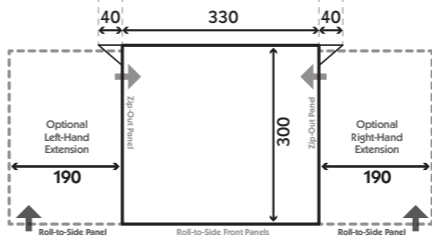

WEATHERSHIELD™ ALL-SEASON

Ultra-rugged and UV resistant All-Season material, perfect for touring in warmer climes and for use on a seasonal pitch. The fully breathable fabric is constructed to handle extremes of weather and has been tested in the wettest regions of Europe and the sunniest parts of Australia to ensure it never lets you down.

ACE AIR ALL-SEASON 400

THE INFLATABLE AWNING FOR A SEASONAL PITCH

Ready for year-round adventure. Constructed with hard-wearing Weathershield™ All-Season material, this generously sized caravan awning provides masses of space and comfort wherever you're pitching-up. Packed full of features, the Ace Air All-Season has external window blinds, a double mud wall, a large side window mesh panel and an adjustable canopy. Enjoy reliable shelter and comfort at any time of year.

UPF 50+

Weathershield

ALL-SEASON

WEATHERSHIELD™ ALL-SEASON

Ultra-rugged and UV resistant All-Season material, perfect for touring in warmer climates and for use on a seasonal pitch. The fully breathable fabric is constructed to handle extremes of weather and has been tested in the wettest regions of Europe and the sunniest parts of Australia to ensure it never lets you down.

FRONT CANOPY
Integral wet weather canopy with apex ventilation.

DOUBLE MUD WALL
Tough double mud wall directs rain water away from the awning, keeping the ground around the pegging points dry and the awning secure.

EXTERNAL BLINDS
All windows have external zipped blinds for added protection and privacy.

QUICKPITCH™ GUYING SYSTEM
Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

RALLY AIR ALL-SEASON 260

FREEDOM TO EXPLORE

The smallest All-Season solution in the Kampa Dometic caravan awning range, the Rally AIR All-Season is ideal for compact caravans and weekend tourers. This latest AirFrame awning has the benefits of other Rally AIR Pro models, but unlike its Pro counterparts, it's constructed with Weathershield™ All-Season material for seasonal pitching. Zip-out front and side panels reduce the pull through weight for a quick and easy set-up.

RALLY AIR PRO

TOURING CHANGED FOREVER

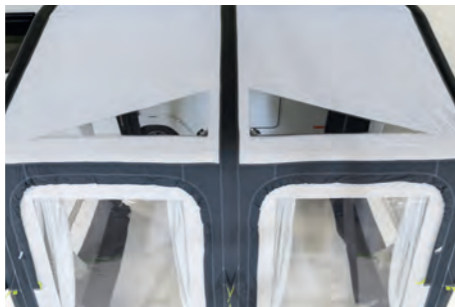

The iconic Rally AIR Pro benefits from years of continuous design improvements and is packed full of the latest awning innovations to enhance your touring experience. Its Weathershield™ Pro material, crystal clear windows and additional ventilation create a comfortable living space wherever you pitch-up. Not forgetting Kampa Dometic's unique Single Point Inflation system and QuickPitch™ webbing straps which ensure a fast and easy set-up every time.

Easily swap the interchangeable side panels for up to two zip-on annexes – with the Rally AIR Pro, friends and family are always welcome. Ideal for weekend breaks and longer holidays, this versatile awning can be tailored to your needs with mesh panel sets, storm straps and many more accessories.

QUICKPITCH™ GUYING SYSTEM

Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

DUAL-PITCH™ ROOF SYSTEM

Increases headroom, ensures effective wind deflection and efficiently sheds rain water.

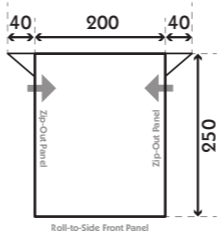

ROLL-TO-SIDE FRONT PANEL

The front panels can be rolled to the side opening the front up, or alternatively zipped halfway down to let air in without compromising security.

WINTER AIR PVC 260

NOW THERE'S NO OFF-SEASON

The world's first inflatable winter awning, Winter AIR PVC comes complete with snow support poles, a double mud wall, storm straps and tarzan pegs as standard. Its super tough Weathershield™ PVC

material ensures this awning stands up to the most extreme snowy conditions. While the new triple beading means this awning is equally suited to both motorhomes and caravans.

PREPARED FOR ANYTHING

The Winter AIR PVC has been designed from top to bottom to support your winter adventures. In anticipation of the demanding weather conditions you may face, the world's first purpose built inflatable winter awning has everything you need to thrive in the most challenging of conditions.

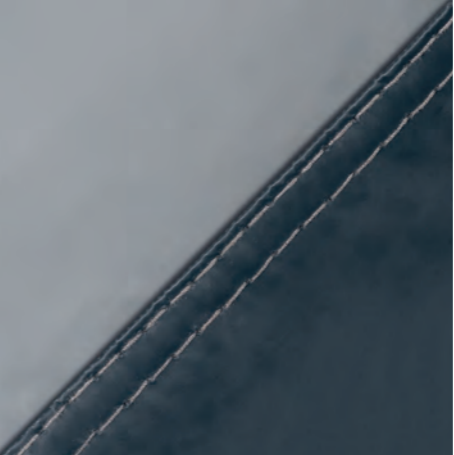

Included with the awning as standard:

- 2 x Rear upright poles
- 2 x Snow support poles
- Roof lining
- Storm straps
- Draught skirt
- Downdraught hand pump
- Tarzan pegs

SINGLE POINT INFLATION

Single Point Inflation AirFrame awnings inflate entirely from just one external inflation point.

WEATHERSHIELD™ PVC

400g/m² Weathershield™ PVC is tough, waterproof and easy to clean.

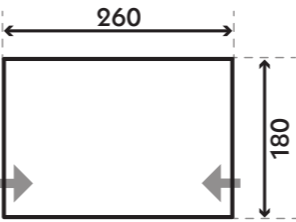

TRIPLE BEADING C

Features 4 mm, 6 mm and 7 mm beading as standard, allowing fitment to both caravan awning rails and motorhome cassette awnings.

Suitable for caravans with a rail height of 235 - 250 cm

LEGGERA AIR

MOBILE TOURING JUST GOT EASIER

A new addition to our inflatable awning assortment. Featherweight Weathershield™ 150D polyester material and a compact 2.4 metre depth make the Leggera AIR the fastest Kampa Dometic awning to set-up and take-down, yet there's no compromise on quality. Single

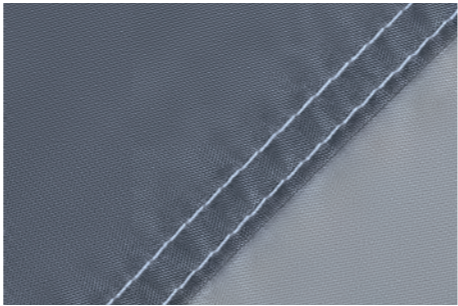

point inflation, storm straps, lots of ventilation, and an optional canopy guarantee the Leggera AIR is ideal for tourers seeking a great value, lightweight awning.

STORM STRAPS
Storm Straps add stability & improves performance in adverse weather conditions. Supplied in pairs.

APEX VENTILATION
Weather protected apex ventilation allows warm air to escape, increasing air circulation and reducing condensation inside the awning.

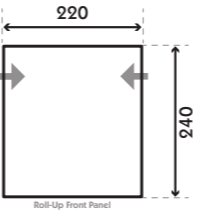

WEATHERSHIELD™ 150D
Extremely light and easy to handle, Weathershield™ 150D promises super-fast set-up and take-down every time.

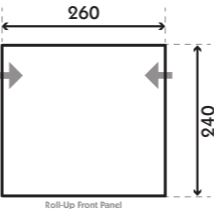

LIGHTWEIGHT AWNING TECHNOLOGY
The pull-through weight of the Leggera AIR 220 is a mere 7.68 kg, while the Leggera AIR 260 weighs only 7.84 kg.

POL ED AWN INGS

PREMIUM POLED AWNINGS

PIONEERS OF HIGH QUALITY POLED AWNINGS

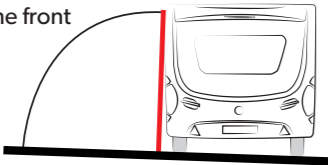

There's a Kampa Dometic poled awning for almost every caravan. From the original lightweight Rally to the classically styled Ace Pro, no other lightweight awnings are so advanced in their design, quality, or ease of use.

These conventionally framed porch awnings adapt to suit your pitch, adjustable front legs account for uneven ground and ensure a great fit between your awning and caravan wherever you go.

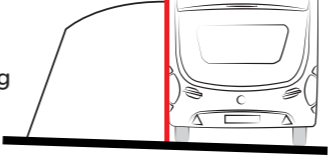

POLED AWNING WITHOUT ADJUSTABLE LEGS

When the ground slopes upwards away from the caravan, the front legs are pushed upwards pulling the back of the awning away from the caravan.

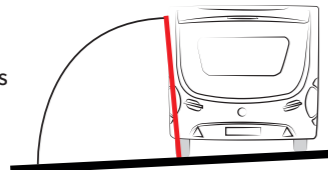

POLED AWNING WITH ADJUSTABLE LEGS

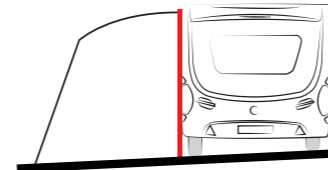

When the ground slopes upwards away from the caravan, the legs can be made shorter maintaining a close fit against the caravan.

When the ground slopes downwards away from the caravan, the front legs drop making the back of the awning too close to the caravan.

When the ground slopes downwards away from the caravan, the legs can be made longer maintaining a close fit against the caravan.

The iconic Kampa Dometic fabric used extensively throughout the range has proven quality in diverse environments. With the look and feel of a traditional fabric, but weighing far less, WeatherShield™ Pro continues to be the definitive choice for tourers the world over.

Extremely light and easy to handle, WeatherShield™ 150D promises super-fast set-up and take-down every time. Highly durable and weather-resistant too, this lightweight material offers great value with no compromises.

An Ultraviolet Protection Factor (UPF) denotes how much solar ultraviolet radiation is reduced when passing through fabric. Kampa Dometic awning material allows only 1/50th of ultraviolet rays to pass through, ensuring you're protected and kept cool.

ACE PRO 400

THE BEST IN LIGHTWEIGHT AWNING DESIGN AND FUNCTION

At 400 cm wide and a very generous 300 cm deep, this impressive awning is large enough for an extended holiday and an ideal replacement for a full awning. WeatherShield™ Pro material and a full DynaLite aluminium frame ensure the Ace Pro 400 is both lightweight and easy to set up. Skylights in the roof and the large panoramic windows offer superb views.

FRONT UPRIGHT POLES

DynaLite aluminium front upright poles can be adjusted for uneven ground.

ZIP-OUT FRONT PANELS

Front panels can be zipped out to reduce weight and to open the awning up veranda style.

OPTIONAL

SUN WING

A generous clip-on canopy uses aluminium anodised poles to create a large shaded area, keeping you comfortable and protected.

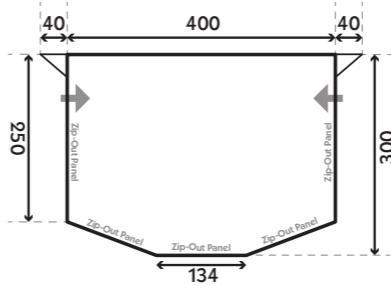

Sun Wing 400 / Model No. CE7026

For full technical data see p. 72

ACE PRO 400 CE740465

Ref. No. 9120000032

For full technical data see p. 69

Suitable for caravans with a rail height of 235 - 250 cm

Suitable for caravans with a rail height of 235 - 250 cm

RALLY PRO

FULLY ADJUSTABLE FOR A PERFECT PITCH EVERY TIME

The Rally Pro is produced in extra-high quality Weathershield™ Pro material that looks and feels like a traditional fabric, but when combined with a full DynaLite aluminium frame, is actually far lighter. Ideal for short breaks away or for an extended holiday, and with a

generous 2.5 m depth, there's plenty of room for a table and chairs too. Clever design features are found throughout, the bumper pads are pre-punched to suit the Limpet™ Fix System and the front upright poles are adjustable, ensuring a perfect pitch every time.

FRONT UPRIGHT POLES

DynaLite aluminium front upright poles can be adjusted for uneven ground.

ZIP-OUT SIDE PANELS

Interchangeable zip-out side panels allow the fitting of an annexe and the reversal of the side doors – from the back of the awning to the front.

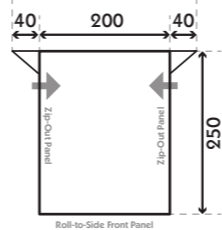

ROLL-TO-SIDE FRONT PANELS

The front panels can be rolled to the side opening the front up, or alternatively zipped halfway down to let air in without compromising security.

WEATHERSHIELD™ PRO

The iconic Kampa Dometic fabric used extensively throughout the awning range has proven quality in diverse environments. With the look and feel of a traditional fabric, but weighing far less, Weathershield™ Pro continues to be the definitive choice for tourers the world over.

RALLY

THE ORIGINAL FULLY ADJUSTABLE PORCH AWNING

Suitable for caravans with a rail height of 235 - 250 cm

Featuring premium Weathershield™ polyester and a DynaLite aluminium frame, the original Rally is incredibly lightweight and easy to set up – with the majority of the set-up done from the outside of

the awning. Adjustable front poles ensure stability and reliable performance, no matter where you pitch-up. The Rally is quick to dismantle and packs neatly into a carry bag with compression straps.

ACCESSORIES

STORE PVC

THE WORLD'S FIRST INFLATABLE STORAGE TENT

The generous dimensions of the Kampa Dometic Store PVC makes it ideal for keeping your awning clear of furniture and bikes, or for creating the ultimate camping kitchen. Its durable Weathershield™ PVC construction allows you to explore off-site with the confidence your gear is safe and well protected from the elements. For extra security, up to four optional storm tie-down straps can be fitted. Available with an aluminium or inflatable AirFrame.

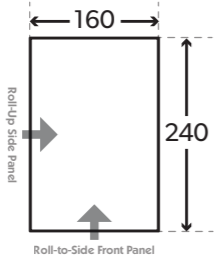

STORE AIR PVC CT9037

Ref. No. 9120000432

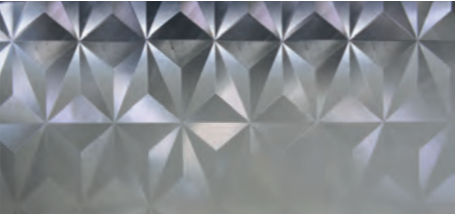

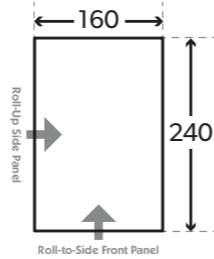

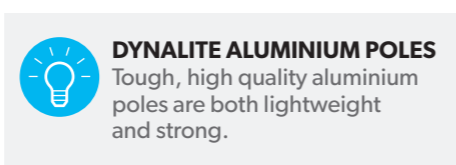

For full technical data see p. 71

STORE PVC CT9036

Ref. No. 9120000435

PRIVACY WINDOW

Diffusing the sun's rays to ensure the Store retains a light, airy feel without overheating and compromising privacy.

ROLL-UP SIDE PANEL

Allows easy access to larger items, such as furniture and bikes.

WEATHERSHIELD™ PVC

400g/m² Weathershield™ PVC is tough, waterproof and easy to clean.

AIR BREAK

THE WORLD'S FIRST INFLATABLE WINDBREAK

Never has a windbreak been so easy to set-up. Simply peg and pump to enjoy the AIR Break's free-standing protection or connect it to the front of Kampa Dometic awnings to create a fully enclosed area – great for keeping dogs in. Utilising a unique AirFrame system with

easy Single Point Inflation, the AIR Break remains sturdy yet flexible in the wind. Available in Weathershield™ Pro fabric and new for 2020, Weathershield™ All-Season material, this windbreak complements your awning perfectly.

PRO WINDBREAK

VITAL PROTECTION FROM THE WIND

Quick to set-up and supported with adjustable support bars, the Pro Windbreak is the perfect addition to your awning. The full aluminium frame is lightweight and corrosion-resistant. Connect multiple Pro

Windbreaks together using figure-of-8 strips (AC0325) to create a larger protected area, and enclose the area with zipped access using the Pro Windbreak Door – ideal for pets.
